# Church Alive Preschool Philosophy

Church Alive Preschool focuses on developing children spiritually, academically, socially, and emotionally. The preschool believes in providing a safe, loving, and encouraging environment where children can learn, grow, and develop their God-given potential.  We have four initiatives enacted that ensure our planning and teaching culture result in the desired outcome of happy, powerful students. These initiatives enable us to provide the best experience we can for our families.

To help students develop spiritually, academically, socially and emotionally Church Alive Preschool enacts four main initiatives:

**1.) Advanced academics** - Using the “WEE LEARN” Christian curriculum our teachers and assistant teachers provide an energetic and relevant education by implementing these four popular learning styles 1. reading and writing, 2. auditory, 3. visual, and 4. kinesthetic.

**2.) Healthy relationships** - Using the “Becky Bailey Conscious Discipline” curriculum woven with Bible verses, Bible stories, and Bible teachings, our teachers and assistant teachers relate to each individual in a manner that helps them establish and maintain positive relationships with others while becoming accomplished students.

**3.) Leadership development** - Building confidence and independence throughout the student body, our teachers remain aware of each students individual person while helping them achieve the goal of unifying in the classroom, during play times, and while participating in extra curricular activities.

**4.) Strong futures** - Our teachers and assistant teachers work together with the administrative staff to help highlight leadership and professional pathways in our community, pointing out what futures a student might possibly reach for.

We believe through hands-on learning, play, and exploration, children develop important foundational skills while also learning about God's character, His love, and how to share God’s love with others.

As a ministry of Church Alive, the preschool establishes the church's mission of loving God and loving others while helping children become future leaders and make a positive difference in  their communities.

Church Alive Preschool establishes its philosophy by providing the academics, facility, and atmosphere where children can build positive relationships, develop independence, practice kindness, while growing in their faith and preparing for future academic success.
